TEAM CONTRIBUTION

Chitra, Vidhi and Amartya were the **human-review backbone behind Cuemath's LLM class-reviewer**. In collaboration with the product team across multiple iterations they completed 45+ nuanced blind double reviews of live classes against a new LLM friendly evolving rubric — each review running ~2.5 hours — while fine tuning the rubric and calibration. Their discipline held reviewer agreement within ±0.20 of LLM scores.

Chitra drove human **calibration of the AI Communications Test** across 100+ samples — **98.5% accuracy**, cutting ~55% of downstream quality leakage.

Vidhi was the liaison with the product team on the Class Reviewer — **project-managed the process and delivery of the LLM centric reviews across multiple iterations**.

Amartya built the automated **Class Evaluation Reviewer**, now in pilot — **75% less review time**.
