Delivery at Scale, Without Dropping Quality

Neethu Krishna · Prachi Pathak · Anuva Sharma

Award: Alpha (Group) | **Rating:** 4.5/5 | **Group:** Tutor Success | Tutor Hiring — Training & Quality | **Duration:** JAS 2026 (July–September)

PROGRAM IMPACT

In Q3 2026, Trial Training absorbed a record intake of 716 candidates (287 in September alone) while the training flow moved from RISE 3.0 to the new Training Tracker — and graduated **400 teachers**, the programme's best quarter yet.

REASON FOR NOMINATION

- **Delivery at scale** — the three carried 44% of the programme's candidates and delivered 47% of its graduates: 186 of 400.
- **Quality held under load** — throughput 59% vs 52% and drop rate 17% vs 23% against the other five core mentors, with rubric scoring as strict as any mentor's (1–2% fail rates).
- **Consistency through change** — 532 of the 1,170 mock-session reviews this quarter, feedback within two days, and the highest mentee ratings surveyed on being essential to clearing the Final Trial.

TEAM CONTRIBUTION — CORE MENTOR TEAM, JAS 2026

MENTOR	STARTED	GRADUATED	THROUGHPUT	EFFICIENCY	DROP RATE	MOCK FAILS	MEDIAN TAT
Neethu	110	68	62%	62%	21%	8	9 d
Prachi	101	61	60%	67%	13%	3	9 d
Anuva	104	57	55%	59%	18%	8	10 d

Neethu K-5 & 3-8 · NAM, IME, APAC, EUK
Delivered **68 graduates — the most in the programme**, including the biggest single month this quarter (31 in September) while absorbing 42 new candidates across every region. Her session reviews are the most detailed in the team: ~200 words of ordered observation per class with the exact phrase to use next time. Mentees rate her 4.6/5.

Prachi 3-8 & 9-12 · NAM-led
Delivered **61 graduates at the best efficiency in the core team (67%)**, with a 13% drop rate and only 3 mock fails in 101 candidates — the team's senior-grade specialist, carrying the 9-12 cohort alongside 3-8. Her reviews explain the why behind each correction and target the Cuemath shift to student-led learning. Mentees score her 4.8/5 on being essential to clearing.

Anuva K-5 & 3-8 · IME & NAM, plus APAC, EUK
Delivered **57 graduates with zero candidates paused**, alongside Implementation Review and Final Evaluation duties. Feedback reaches the candidate **the same day** as a numbered checklist to rehearse against. Highest mentee rating surveyed, **4.9/5**; six of eight say they would likely have dropped without her.

4.9/5
Highest mentee rating surveyed on "essential to clearing the Final Trial"

GOING THE EXTRA MILE

The numbers come from how the three work. They take **intervention calls and counsel candidates** who stall — tracker notes show days of repeated calls and messages to bring paused candidates back — and **personalise feedback and sessions** to each candidate's gaps. They **adjust their own schedules** around working professionals, running mocks in evenings and on weekends (*"she said don't worry, I will manage time for you on weekends to accommodate your office timings"*). And they **hand-hold past graduation to the first class** (*"even now, whenever I have a doubt, she always responds"*; *"after my final trial she took 15 minutes just to ask what the problem was"*). **Ownership beyond their own KPIs:** in crunch weeks they step forward to **role-play and review for other mentors' candidates** so the programme lands a solid final number of certified coaches — the sheets show **123 Final Evaluation reviews on other mentors' mentees** this period (Prachi 63, Anuva 42, Neethu 18), none of which count toward their own graduate totals — together making **400 teachers Business Ready in JAS 2026**.
